## Hua Hin : The Sleeping Beauty

Combining the atmosphere of charming rugged shorelines and the placid sand beaches with the natural attractiveness of the Southern Region, Hua Hin is striking for its variety and contrasts. Aside from the unspoiled beauty of the seaside resort, Hua Hin offers extensive traditional attractions. A visit to this gateway to the South is guaranteed to be a spectacular excursion. It is just two hours south of Bangkok the capital. The renowned Klaikangwon Palace is situated here, only a little way away from various other attractions like beautiful green islands off the shoreline, caves of limestones, the country's biggest coconut farm, a gold mine, and pineapple plantations extending beyond

the horizon. In the past, visitors to this seaside resort have had some problems concerning lodging and transportation. But presently such inconveniences no longer exist as a new 184 Kilometres long highway is now open to traffic and a trip to Hua Hin now takes merely two hours to complete. The newly-built Sai-Lom Hotel is proud to welcome you to this magnificent gateway to the South.

Come visit Hua Hin, The Sleeping Beauty princess in her own right and enjoy the unmatched charms of drowsy beaches and superb outdoor recreational advantages which make Hua Hin a true paradise for family vacationers.
